

**National Oceanic and Atmospheric
Administration (NOAA)
Atlantic Oceanographic and
Meteorological Laboratory (AOML)**

PHYSICAL OCEANOGRAPHER

NOAA/AOML is part of the US Department of Commerce and is located in Miami, Florida. AOML mission is to conduct basic and applied research in oceanography, tropical meteorology and atmospheric and oceanic chemistry. The Physical Oceanography Division (PHOD) at AOML does state-of-the-art climate and ecosystem research and supports a broad range of oceanographic observations. PHOD is inviting applications for ZP IV-V (equivalent to GS 13-15) observational physical oceanographer to join its scientific team. A strong post-graduate background in physical oceanography or related fields, a robust publication record, a history of success in obtaining funding and conducting research projects are required. Potential applicants are encouraged to find more information about PHOD at: www.aoml.noaa.gov/phod. All applicants must apply on line at: www.usajobs.gov announcement numbers: OAR-AOLM-2009-0035 and OAR-AOML-2009-0036. Applications are accepted until October 15, 2009.
